

Digital Jim's RESERVATION FORM

Digital Jim's is an ultra high-tech DJ service built from the ground up with modern technology and has never had an unsatisfied customer. Our specialty is Wedding Receptions and our DJs know how to have fun. But more importantly, we know how to help you and your guests have fun. We've got it all: The Music You Want, Awesome Sound System, Fun DJ's, Spectacular Lighting Effects, and More!

Our entire operation is completely computerized, top-of-the-line and cutting edge – from our speakers and mixers to our lighting and special effects, so you're guaranteed to get our "Pure Digital Sonic Experience" for a crisp, clean, perfect sound every time – no old fashioned CD's or low quality MP3's – we play high fidelity MP4's. We have great music from just about every style imaginable, and lots of it! However, we do NOT play violent "Gangsta Rap" or "Death Metal" music styles.

Best of all, we're extremely flexible to accommodate your special needs and wants. We work with you to make sure everything goes just the way you've always dreamed. After all, this is a once-in-a-lifetime event and you don't want to regret taking a chance with an impersonal DJ service.

Our rate is \$750. We require half down, \$375, to hold your date, which is reserved on a first-come-first-serve basis. The remainder must be paid on or before the day of the event. Two dinners shall be provided by you for the 2-DJ team that will serve you and your guests.

- Make checks payable to: Jim Pinter. We also accept cash and all major credit cards. -

Help us make the most of your special day by taking the time to complete the front and back of this form with the appropriate information and your personal preferences.
